

CONNECTION

Designed by Cider Edition

WORKSTATION I H E I G H T ADJUSTABLE DESK

Connexion is a family of height-adjustable workstations designed to enhance employee well-being. Ergonomically designed, it allows the user to move effortlessly from a sitting to a standing position, thus ensuring that they remain active and productive in the workplace.

Connexion offers several top finishes, from melamine to electric height adjustment. It is also equipped with an integrated cable duct for optimised cable management and acoustic partition screens. An asset for collaborative and dynamic work environments in Flex Office.

TECHNICAL DESCRIPTION

1 - Tray

Table top in 2 standard sizes 140 and 160 cm wide, i.e. 6 cm overhang from the outside of the base. Depth of top: 800 mm. Top in 25 mm thick melamine. Smooth or lightly textured melamine decor sheet, depending on the choice of finishes. 90° edges in the same finish as the top. Rounded edges optional.

2 - Engine

Quiet <50dB, integrated soft start and soft stop functions. Motorisation integrated in the beam, synchronised feet (in case of technical problems, the feet are always at the same height). Constant speed of 40 mm / second. No delay at the remote control, the latter is fixed under the plate on the right (without any discomfort for the user). Maximum supported weight 100kg (including the weight of the tray). Electronic box with minimal power consumption in standby mode: limited to 0.3W.

Noise level during adjustment: < 50 dB
 • Maximum worktop load (including tray weight): 100 kg
 • Power consumption in operation: 128 W
 • Standby power consumption: 0.3 W

3 - Structure

Round base in black or white / height adjustable from 650 to 1300 mm / the round base of the base gives a more aesthetic appearance. Equipped with manual PVC bolts for stabilisation. In textured epoxy painted metal. Translucent lever control up/down, intuitive operation, with programmable stops in upper and lower position, LED lighting during adjustment Horizontal crossbar for H-shaped legs in steel tube 75 x 55 x 1.5 mm thick

4 - Legs

100 mm wide / Adjustable length 1200 mm to 1800 mm. Can accommodate a tray up to 2m. Adjustment pads M8 x 20 mm - adjustment range 15 mm Motorised beams in steel tube 94 x 47 x 1.5 mm thick Tray supports made of laser-cut sheet steel, thickness 2.5 mm Powder-coated in RAL black or white

DEPTH OF RANGE

Individual deskBench 2/4 P.

- Indoor air emission quality A+ (ISO 16000)
- CFC free

OPTIONS

ELECTRIFICATION OPTIONS

- Melamine accessory top - Bureau
Melamine top access with slow motion tilting access for workstations.
- Simple comfort box
1 comfort socket + 1 USB.

- Chute
Fixed to the supporting structure and made from a 1 mm thick folded metal sheet.
- Double comfort box
1 comfort socket + 2 USB.

- Cable management
Thermoformed fishnet sock
- Setting control
Possibility of displaying and memorising the height

PANEL OPTIONS

- Silencio
Partition screen consisting of a wooden structure covered with acoustic material and covered with fabric or leather.

FINISHES

• PLATEAU

MELAMINATED

• ACOUSTIC PANEL

FABRIC

- CAT 1
[GABRIEL](#) - cura, chili, felicity, go check, go couture, rondo, step melange, tonal, bond [ELASTRON](#) (not available for moody) paris, boston, macau, ascote, seattle
[FIDIVI](#) - torino, incas, orta, one
- CAT 2
[FIDIVI](#) - safari, terra, corte, matera, laser j
[GABRIEL](#) - contour, tempt, swing, crisp, mood, morph

MAINTENANCE

• MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

• FABRIC

To maintain the fabric, regularly remove dust and lint with a Hoover. If a stain occurs, wipe the fabric immediately with an absorbent, lint-free sponge or cloth. Rub the stain with a damp cloth soaked in ordinary household distilled water to prevent water spots from forming on dark fabrics after drying. Test a hidden area beforehand. For stubborn stains: lightly brush the stains with a soft, dry brush.

• STRUCTURE

METAL

LEATHER

- CAT 3
[GABRIEL](#) - breeze, fusion
[ROHI](#) - mica, sera, credo
- CAT 4
[RUBELLI](#) - fab, thirty, peru, dick tracy, martora, embroidery, coriandolo s, almoro
[KVADRAT](#) - uniform, blend
- TRENDY COLORS LEATHER
[JOLLY](#) - carmen
- LEATHER
[DANI](#) - Florida
- EXTRA LEATHER
[DANI](#) - nabuk
[SORENSEN](#) - royal nubuk, dunes

• METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

• LEATHER & IMITATION LEATHER

Do not place the leather in direct sunlight or extreme heat. Remove dust regularly with a soft cloth. Clean using a cleaner or milk dedicated to the maintenance of leather and imitation leather. Proceed by stroking, without rubbing or pressing too hard. Avoid contact with water or sharp objects. If liquid is spilled, wipe up immediately with a clean, dry cloth. NEVER use detergents, ammonia, oil or varnish. For Royal Nubuck Sorensen, avoid contact with liquids and creams

GUARANTEE

- 5 year warranty
- 10-year manufacturing life

ECOLOGICAL FOOTPRINT

- Made in Germany
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- Legs and metal parts made of 100% recyclable steel, painted with A and E1 classification
- Springs with A and E1 classification
- Screen upholstered in Oeko Tex or Cradle to Cradle certified fabrics, depending on the choice of finishes. Optional interior in PET, made from recycled plastic bottles
- Our fabrics are Global Recycled Standard / EU ecolabel / RAL UZ / Green Guard / Blue Angel certified depending on the choice of finish.

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
