

# GOODSLIM

Designed by Cider Edition

## WORKSTATION | INDIVIDUAL DESK

The GoodSlim range of design desks is characterised by the combination of a very thin melamine-finished wooden top and a clever base: a mix of sloping wooden legs on the user side and straight, space-saving metal legs at the back. An obvious solution for companies, start-ups and coworking spaces on the move who are looking for a workstation that can be converted from an individual configuration to a bench configuration, without compromising on design, stability and accessibility.

# GOODSLIM

Designed by Cider Edition

## TECHNICAL DESCRIPTION

### 1 - Tray

High resistance melamine top, 25 mm thick, with a density of +/-3% of 770 kg/m<sup>3</sup>. Smooth or lightly textured melamine decor sheet according to the choice of finishes.

Counterbalance in melamine with the same finish. 2 mm thick ABS edges as standard, finished as per tray.

### 4 - Cylinders

20 mm diameter PVC adjusting cylinders. Adjustment stroke of 13 mm

### 2 - Structure

Structure composed of a metal crosspiece for each table top, covered with epoxy powder paint, with inserts to ensure a quality and durable fixing of the top. The wooden leg is attached to the metal structure by inserting and screwing into the side lintels to provide maximum rigidity to the table.

### 3 - Legs

Sloping A-frame, solid oak. Square section of 50x50mm at the base of the leg and 35x35mm at the tip.

Or straight U-shaped, metal legs, rectangular section 50 x 25 mm, epoxy powder coated. Invisible high quality welding on the top of the leg.

## SETTINGS

For Bench or multiple meeting table configurations and for central extension modules, an epoxy powder-coated steel intermediate leg reinforces the structure. It is set back for user comfort.

## DEPTH OF RANGE

Individual office 2 individual offices facing each other

## INFORMATION

INDIVIDUAL OFFICE

## PRODUCT CERTIFICATIONS

- FSC & CARB tray
- Indoor air emission quality A+ (ISO 16000)
- CFC free

## OPTIONS

### TRAY OPTIONS

• Sliding table - Bench  
Metal plate with slot for sliding the tray and easy access to the nurse for installation and maintenance. For safety reasons, the sliding mechanism can be blocked by a knob.

• Recess - Bureau  
Cut-out in the tray to allow cables to pass through.

• Ruler  
A metal strip in the middle of the bench can be used to add a panel at a later stage.

### ELECTRIFICATION OPTIONS

• Top access aluminium - Reunion  
Aluminium top access with slow motion tilting access for meeting stations.

• Top access wood - Office  
Wooden top access with slow motion tilting access for workstations

• Chute  
Fixed to the supporting structure and made from a 1 mm thick folded metal sheet.

• Simple comfort box  
1 comfort socket + 1 USB

• Double comfort box  
1 comfort socket + 2 USB

• Cable management  
Thermoformed fishnet sock

### PANEL OPTIONS

• Backdrop  
Melamine backdrop

## FINISHES

### • PLATEAU

#### MELAMINATED

### • PIECE

#### METAL

#### WOOD

## MAINTENANCE

### • MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

### • METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

## GUARANTEE

- 5 year warranty
- 10-year manufacturing life

## ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- Legs and metal parts made of 100% recyclable steel, painted with A+ and E1 classification
- Songs with A and E1 classification.

## ENVIRONMENTAL STATEMENT

### • Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

### • Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

### • Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
