

GOODWOOD

Designed by Industrial Orchestra for Cider Edition

WORKSTATION I DESK / BENCH / MEETING TABLE / STORAGE

The Goodwood range of desks and meeting tables is the ideal answer to all workspace layouts in search of warmth, conviviality and beautiful materials.

Manufactured in Italy and certified NF Environnement, Goodwood fully meets the environmental requirements applied to tertiary facilities. The sober mix of materials and textures highlights the clean lines of this functional and elegant workstation. A contemporary response to open spaces and offices, it can be used as a simple workstation or bench, a coworking table or a meeting table.

GOODWOOD

Designed by Industrial Orchestra

TECHNICAL DESCRIPTION

1 - Tray

High resistance melamine top, 25 mm thick, with a density of +/-3% of 770 kg/m³. Smooth or lightly textured melamine decor sheet according to the choice of finishes.

Counterbalance in melamine with the same finish.

2 - Singing

2 mm thick ABS edges as standard, finished as per tray.

3 - Structure

Structure composed of two epoxy powder coated metal crosspieces for each table top, with inserts to ensure quality and durability of the top. The wooden leg is fixed to the metal structure by inserting and screwing it into the side lintels to provide maximum rigidity to the table.

4 - Base

Sloping A or straight U-shaped legs, mixed metal and solid oak. Square section of 50x50mm at the base of the leg and 35x35mm at the tip.

5 - Cylinders

20 mm diameter PVC adjusting cylinders. Adjustment stroke of 13 mm

STORAGE MODULE

The range is based on storage modules of different sizes that are combined with this framework. They are available in a wide range of versions: sliding doors, hinged doors, drawers, CPU storage, niches, benches, etc.

Wooden legs and metal crossbar form the base of the storage unit.

The storage units are finished in melamine with 18mm thick panels everywhere except the 22mm top.

SETTINGS

For Bench or multiple meeting table configurations and for central extension modules, an epoxy powder-coated steel intermediate leg reinforces the structure. It is set back for user comfort.

PRODUCT CERTIFICATIONS

- NF ENVIRONMENT
- FSC & CARB tray
- Indoor air emission quality A+ (ISO 16000)
- CFC free
- PET 01

OPTIONS

TRAY OPTIONS

- Sliding table - Bench
Metal plate with slot for sliding the tray and easy access to the nurse for installation and maintenance. For safety reasons, the sliding mechanism can be blocked by a knob.

- Recess - Bureau
Cut-out in the tray to allow cables to pass through.

ELECTRIFICATION OPTIONS

- Top access aluminium - Reunion
Aluminium top access with slow motion tilting access for meeting stations.
- Simple comfort box
1 comfort socket + 1 USB.

- Melamine accessory top - Bureau
Melamine top access with slow motion tilting access for workstations.
- Double comfort box
1 comfort socket + 2 USB.

PANEL OPTIONS

- Silencio
Partition screen consisting of a wooden structure covered with acoustic material and covered with fabric or leather.

- Moody
Acoustic partition made of recycled PET foam covered with fabric.

FINISHES

• PLATEAU

METAL

- PIECE

METAL

WO OD

[ELASTRON](#) (not available for moody) paris, boston, macau, ascote, seattle
[FIDIVI](#) - torino, incas, orta, one

- CAT 3
[GABRIEL](#) - breeze, fusion
[ROHI](#) - mica, sera, credo

- CAT 2
[FIDIVI](#) - safari, terra, corte, matera, laser j
[GABRIEL](#) - contour, tempt, swing, crisp, mood, morph

- CAT 4
[RUBELLI](#) - fab, thirty, peru, dick tracy, martora, embroidery, coriandolo s, almoro
[KVADRAT](#) - uniform, blend

SILENCIOCUIR: SILENCIO ONLY

- TRENDY COLORS LEATHER
[JOLLY](#) - carmen

- LEATHER
[DANI](#) - Florida

- EXTRA LEATHER
[DANI](#) - nabuk
[SORENSEN](#) - royal nubuk, dunes

MAINTENANCE

• LEATHER & IMITATION LEATHER

Do not place the leather in direct sunlight or extreme heat. Remove dust regularly with a soft cloth.
Clean using a cleaner or milk dedicated to the maintenance of leather and imitation leather. Proceed by stroking, without rubbing or pressing too hard.
Avoid contact with water or sharp objects. If liquid is spilled, wipe up immediately with a clean, dry cloth. NEVER use detergents, ammonia, oil or varnish. For Royal Nubuck Sorensen, avoid contact with liquids and creams.

• FABRIC

To maintain the fabric, regularly remove dust and lint with a Hoover. If a stain occurs, wipe the fabric immediately with an absorbent, lint-free sponge or cloth. Rub the stain with a damp cloth soaked in ordinary household distilled water to prevent water spots from forming on dark fabrics after drying. Test a hidden area beforehand.
For stubborn stains: lightly brush the stains with a soft, dry brush.

• MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

• METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

GUARANTEE

- 5 year warranty
- 10-year manufacturing life

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France

- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- Legs and metal parts made of 100% recyclable steel, painted with A and E1 classification
- Songs with A and E1 classification

- Screen upholstered in Oeko Tex or Cradle to Cradle certified fabrics, depending on the choice of finishes. Optional interior in PET, made from recycled plastic bottles
- Our fabrics are Global Recycled Standard / EU ecolabel / RAL UZ / Green Guard / Blue Angel certified depending on the choice of finish.

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
