

I-LAND

Designed by Cider Edition

WORKSTATION I DESK / MEETING TABLE / STORAGE

I-Land combines authenticity and attention to new uses for a range of high quality executive offices with a very high level of finish. As much statutory as conducive to exchanges, I-Land is an intimate and warm island that wishes to inspire confidence in its users and visitors. The wooden edge of the top and base elegantly encases the Forbo Desktop top in the middle. A soft, innovative material made from natural raw materials that adds a high-quality finish. It looks great when it develops a patina over time.

I-LAND

Designed by Cider Edition

TECHNICAL DESCRIPTION

1 - Tray

Wooden tabletop covered with Forbo Desktop linoleum, an innovative and resistant material made from natural raw materials, which does not leave fingerprints and is easy to clean. It looks great when it develops a patina over time. Rounded edges for maximum user comfort. One (single station) or two (meeting) epoxy powder coated metal crossbars

2 - Base

Tapered, curved wooden base that seamlessly fits into the tabletop of the same wood.

3 - Cylinders

20 mm diameter PVC adjusting cylinders. Adjustment stroke of 13 mm

STORAGE

Wooden pedestal, lacquered melamine, length 1200 or 800, with drawers and an open section on which rests a tray of length 1800mm depth 650mm.

DEPTH OF RANGE

Individual desk Meeting table

Return / Storage

Oak stained ash

Bleached stained ash

MAINTENANCE

- FORBO DESKTOP

A material that does not leave fingerprints and is easy to clean. An antistatic surface, which does not attract dust and is stain resistant. Dirt that settles freely on the surface can be removed with dust cloths or by vacuuming. To remove stubborn dirt, soak a soft cloth with diluted cleaner and wring out well, then clean the linoleum surface. Cleaning of stubborn dirt and stains.

- MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

- METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

GUARANTEE

- 5 year warranty
- 10-year manufacturing life

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible sourcing and management of wood, 100% recyclable and FSC & CARB certified depending on the finish of the trays chosen.
- Metal parts made of 100% recyclable steel, painted with A and E1 classification
- Songs with A and E1 classification

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluousness for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
