

# MERCE

Designed by Marion Jouanin

## ACCESSORY CARPET

The Merce carpet collection is a tribute to choreographic movement. Colours and curves are the graphic markers of this range of printed rugs. A metaphor for a stage on which dancers generate graphics through movement, the carpet becomes an object and delimits a space in which a graphic composition is played out. Welcoming with their generous size, they revive contemporary interiors.

# MERCE

## **PRODUCT CERTIFICATIONS**

- Indoor air emission quality A+ (ISO 16000)
- CFC free

## **FINISHES**

- RUGS

POLYAMIDE

## **MAINTENANCE**

- POLYAMIDE

To clean your carpet, mix 1 tablespoon of soap powder with 1/4 l of water. Dab the stain as much as possible with a clean white cloth. Then treat the stain with a cloth soaked in soap solution and dab again until no more dirt adheres to the cloth.

## **GUARANTEE**

- Product guaranteed for 2 years
- Manufacturing life 5 years

# ECOLOGICAL FOOTPRINT

- Italian manufacture

## ENVIRONMENTAL STATEMENT

### • Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

### • Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

### • Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
