

MONCEAU

Designed by Maison Sarah Lavoine for Cider Edition

TABLE | COLLABORATIVE TABLE

The Monceau high table has the elegance of a Parisian, a casual charm and two-tone legs as slender as a cigarette. An indispensable work and project station for a dynamic environment, a refined aesthetic with soft-touch powder-coated top and welcome electrification options.

MONCEAU

Designed by Maison Sarah Lavoine

TECHNICAL DESCRIPTION

1 - Tray

The table top is powder coated in MDF, with an epoxy powder coating normally used for metal. Without the use of glue, and therefore without VOC emissions, this makes the Monceau a resistant table - to abrasion, scratches and stains - and a full participant in sustainable development. Ogee shaped edges and curved edges for maximum comfort.

2 - Legs

Structure made up of metal crosspieces coated with epoxy powder paint. Symmetrical metal A-frame with wooden shoe and metal footrest

3 - Feet

The leg is fixed to the metal structure by means of metal inserts and screws in the side lintels to provide maximum rigidity to the table and ensure a quality and durable fixing of the top.

DEPTH OF RANGE

Collaborative table High collaborative table

INFORMATION

COLLABORATIVE TABLE*.

Reference	MNC_REU_220_90_H74	MNC_REU_220_90_H90
Length	2200 mm	2200 mm
Depth	900 mm	900 mm
Height	740 mm	900 mm
Weight	60 Kg	65 Kg
Package volume ^{m³}	0,8 ^{m³}	0,9 ^{m³}

*Other dimensions are available on request

PRODUCT CERTIFICATIONS

- FSC & CARB tray
- Indoor air emission quality A+ (ISO 16000)
- CFC free

OPTIONS

ELECTRIFICATION OPTIONS

- Chute
Attached to the underside of the tray and made from a 1 mm thick folded metal sheet.
- Cable lift
Thermoformed fishnet sock

- Simple comfort box
1 comfort socket + 1 USB

- Double comfort box
1 comfort socket + 2 USB

MAINTENANCE

• POWDER-COATED TRAY

Lacquered surfaces require particularly careful maintenance to avoid scratches. To clean, use neutral soap or alcohol diluted in plenty of water, and dry immediately with a soft cloth, if possible white and non-abrasive. It may happen that during the first cleaning, the cloth becomes slightly coloured. This is due to the presence of paint dust on the surface during the drying process: once removed, the problem is solved. Avoid strong detergents, solvents and stain removers.

• WOOD

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

• METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

GUARANTEE

- 5 year warranty
- 10-year manufacturing life

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible sourcing and management of wood, 100% recyclable and FSC or CARB certified depending on the finish of the trays chosen.
- Metal parts made of 100% recyclable steel, painted with A and E1 classification
- Songs with A and E1 classification

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Producing, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
