

# MONTMARTRE

Designed by Mathieu Girard for Cider Edition

## MICRO-ARCHITECTURE ITIER

The Montmartre modules can be used to create an audience space, which can be used as a seating area. Montmartre can be fitted with a handrail, a lamp or a side table for taking notes. Each module can be upholstered and carpeted to suit your needs.

# MONTMARTRE

Designed by Mathieu Girard

## TECHNICAL DESCRIPTION

### 1 - Structure

The platform module is made up of a 20 mm and 15 mm hollowed-out plywood frame. On the inside, multi-ply wooden beams support each of the steps, and allow both the junction between the modules and the possibility of attaching a metal angle piece welded at 90°, which itself will accommodate the options - shelf, lamp, railing, handrail - in an elegant and aesthetic manner.

Two multi-layered wooden panels are used to reinforce the whole, two per module.

### 2 - Optional accessories

Three types of accessories are available to accessorise this platform. A lamp, a shelf or a handrail, which are firmly attached to the structure. These accessories are made of metal and coated with epoxy powder.

### 3 - Coating

The whole area is covered with carpet, fixed with a water-based glue

## OPTION

Reference	MONT_LAM	MONT_TAB
Length	-- mm	300 mm
Depth	-- mm	300 mm
Height	1560 mm	583 mm
Weight	10 Kg	10 Kg
Package volume <sup>m<sup>3</sup></sup>	0,30 <sup>m<sup>3</sup></sup>	0,30 <sup>m<sup>3</sup></sup>

## PRODUCT CERTIFICATIONS

- FSC & CARB wood
- Indoor air emission quality A+ (ISO 16000)
- CFC free

## OPTIONS

### STRUCTURE OPTIONS

- Ramps  
Metal tube, fixed to the wooden base by a metal bracket system, and coated with epoxy powder paint
- Side table  
Metal or lacquered mdf shelf with soft edges
- Lamp  
Microled lamp

## **MAINTENANCE**

### • MOQUETTE

To clean your carpet, mix 1 tablespoon of soap powder to 1/4 L of water.

Dab the stain as much as possible with a clean white cloth. Then treat the stain with a cloth soaked in a soap solution and dab again until no more dirt adheres to the cloth.

### • METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

## **GUARANTEE**

- Product guaranteed for 2 years
- Manufacturing life 5 years

## **ECOLOGICAL FOOTPRINT**

- Italian manufacture
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC, CARB certified
- Metal parts made of 100% recyclable steel, painted with A and E1 classification
- Water-based neoprene adhesive, no VOC emissions

## **ENVIRONMENTAL STATEMENT**

### • Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

### • Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

### • Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
