

# PHIL

Designed by AdriAn Blanc for Cider Edition

**WORKSTATION** I M O B I L E I N D I V I D U A L O F F I C E

Phil is a mobile office, designed for collaboration and projects. At the service of its users, it responds flexibly to the mobility and creativity challenges of companies on the move. Thanks to its small volume, its wheels and its integrated handle, Phil can be moved and stacked easily. It offers mobility and continuity and has been designed to take up a minimum of space. And it's sturdy too!

# PHIL

Designed by AdriAn Blanc

## TECHNICAL DESCRIPTION

### 1 - Tray

High resistance melamine top, 25 mm thick and with a density of +/-3% of 770kg/m<sup>3</sup>. Smooth or lightly textured melamine decor sheet according to the choice of finishes.

Rounded edges

Counterbalance in melamine with the same finish.

### 2 - Structure

Structure consisting of a convex and concave metal base for easy ergonomics and two perimeter crosspieces to support and fix the top, covered with epoxy powder paint.

### 3 - Legs

The base consists of a fixed metal part with a rectangular cross-section at the base, which is rounded off at the tabletop and borders the tabletop to form an integrated handle, so that it can be moved easily.

The other part of the base is finished with 90° plastic castors.

## DEPTH OF RANGE

Mobile individual office

### - PIECE

METAL

## MAINTENANCE

### • MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

### • METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

## GUARANTEE

- 5 year warranty
- 10-year manufacturing life

## ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- Metal parts made of 100% recyclable steel, painted with A and E1 classification
- Edges with A+ and E1 classification
- Eco-responsible sourcing and management of wood, 100% recyclable and FSC & CARB certified depending on the finish of the trays chosen.

## ENVIRONMENTAL STATEMENT

### • Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of the products to their use.

products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

### • Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

### • Producing, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our main partners thus follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
