

# PUZZLE

Designed by Cider Edition

## STORAGE I CUPBOARD / LOCKER

Puzzle is a simple and economical modular storage system, suitable for all office spaces, open or closed. These modules are available in different versions and functionalities: lockers, high or low cupboards, complete with niches, open storage units, storage units with hinged doors, extension units with bottoms in different finishes... The modules can be stacked and disassembled quickly to meet different organisational requirements. A clever way of adapting storage to your workspace at any time. Designed to combine aesthetics and economy, these storage units are an excellent response to functional projects where the quality-price ratio is paramount. With its Italian design and manufacture, Puzzle has all the right points with NF Environment certification.

# PUZZLE

Designed by Cider Edition

## TECHNICAL DESCRIPTION

### 1 - Carcass

The carcass is made of 18 mm thick melamine chipboard panels in a rectangular shape for the base, sides and back.

### 4 - Doors / Handles

Hinged doors in 18 mm thick melamine chipboard and rectangular shape, closing according to the configuration with a slow motion closing system. Plastic handle.

### 2 - Lateral

Panel that incorporates holes for snails and a line of holes with a 3 cm pitch to place the shelves at the desired height.

### 5 - Lock

Rod lock with 2 anchor points: the floor and the top.

### 3 - Base

Base in the lower part, incorporates glides that can be operated from the inside of the cabinet and allow the cabinet or archive to be adapted to any surface

### - Interior

One or two 24mm thick epoxy powder coated metal shelves with a hanging file rail European metal hinges with self-locking system

## SETTINGS

• PUZZLE storage units can be combined and assembled without tools thanks to a simple vertical connection piece which, by allowing a hollow joint between each element, allows the modules to be joined together.

## DEPTH OF RANGE

Low cupboard Low cupboard + niche

Tall cupboard

Lockers

## PRODUCT CERTIFICATIONS

- NF ENVIRONMENT
- FSC & CARB tray
- Indoor air emission quality A+ (ISO 16000)

## **OPTIONS**

• Niche  
Niche available to be placed on top of the Puzzle.

• Planter  
For decorative purposes

## **FINISHES**

### • STRUCTURE

METALLIC

White

Oak

### - DOOR

METALLIC

White

Light greyLight grey

Oak

## **MAINTENANCE**

### • MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

### • METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

## **GUARANTEE**

- 5 year warranty
- 10-year manufacturing life

## **ECOLOGICAL FOOTPRINT**

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- Legs and metal parts made of 100% recyclable steel, painted with A and E1 classification

# **ENVIRONMENTAL STATEMENT**

## • Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

## • Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

## • Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
