

QUEEN

Designed by Cider Edition

SEAT | LOUNGE CHAIR

A classic shape revisited, evocative curves for ultimate comfort:

The Queen armchair becomes a signature with its timeless design. An ally of the office world, the Queen creates a relaxing corner, essential to any vibrant workspace. Its seat is composed of two densities, with a softer, more supple interior in the centre for optimal comfort, a fitted seat cushion and a protective, encompassing backrest for greater privacy. Its structural base adds strength and warmth to the design. Its steel frame is fully moulded with cold-cured polyurethane. Designed for conviviality and reception areas, it can be adapted to your needs in various materials, finishes and colours.

QUEEN

Designed by Cider Edition

TECHNICAL DESCRIPTION

1 - Structure

Steel shell structure, entirely cold-moulded in non-deformable polyurethane foam. The seat cushion is cold-moulded in polyurethane foam and has a double density: softer in the centre for ideal comfort and less flexible on the sides to facilitate padding. Plywood strips underneath the shell and seat cushion for stapling the fabric.

2 - Legs

For the armchair and ottoman there are several possible bases, in wood or chromed metal.

- Frame in solid ash wood, 4-pointed star shape, varnished or untreated oak stained
- 4-star base in chrome-plated aluminium, lacquered in matt black RAL 9005, swivelling.

3 - Armrests

Integrated armrests with a height of 60cm

4 - Upholstery

The upholstery is made of cold-moulded, dimensionally stable polyurethane with an average density of 60 kg/m³.

5 - Coating

Backrest and seat fully upholstered in one or two-tone fabric

• TRENDY COLORS LEATHER

[JOLLY](#) - carmen

• LEATHER

[DANI](#) - Florida

• EXTRA LEATHER

[DANI](#) - nabuk
[SORENSEN](#) - royal nubuk, dunes

MAINTENANCE

• FABRIC

To maintain the fabric, regularly remove dust and lint with a Hoover. If a stain occurs, wipe the fabric immediately with an absorbent, lint-free sponge or cloth. Rub the stain with a damp cloth soaked in ordinary household distilled water to prevent water spots from forming on dark fabrics after drying. Test a hidden area beforehand. For stubborn stains: lightly brush the stains with a soft, dry brush.

GUARANTEE

- Product guaranteed for 2 years
- Manufacturing life 5 years

• LEATHER & IMITATION LEATHER

Do not place the leather in direct sunlight or extreme heat. Remove dust regularly with a soft cloth.

Clean using a cleaner or milk dedicated to the maintenance of leather and imitation leather. Proceed by stroking, without rubbing or pressing too hard.

Avoid contact with water or sharp objects. If liquid is spilled, wipe up immediately with a clean, dry cloth. NEVER use detergents, ammonia, oil or varnish. For Royal Nubuck Sorensen, avoid contact with liquids and creams.

• METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC, CARB certified
- Metal parts made of 100% recyclable steel, painted with A and E1 classification
- Our fabrics are Global Recycled Standard / EU ecolabel / RAL UZ / Green Guard/Blue Angel / Oeko Tex / Cradle to Cradle certified depending on the choice of finish.

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the guarantees of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
