

SLIM 45

Designed by Cider Edition

WORKSTATION / DESK / BENCH / MEETING TABLE

Slim is a collection of desks and meeting tables that stands out for its simplicity and great adaptability. At the service of companies, Slim is both economical and customisable thanks to its multiple finishes and configurations. It can be used for closed offices as well as open spaces, coworking areas or modular meeting rooms, thanks to its intelligent and evolving support structure. Its sober melamine top and square section legs make it special. With its Italian design and manufacture, Slim scores high points with NF Environment certification.

SLIM 45

Designed by Cider

TECHNICAL DESCRIPTION

1 - Tray

High resistance melamine top, 25 mm thick, with a density of +/-3% of 770 kg/m³. Smooth or lightly textured melamine decor sheet according to the choice of finishes.

Counterbalance in melamine with the same finish. 2 mm thick ABS edges as standard, finished as per tray.

4 - Cylinders

20 mm diameter PVC adjusting cylinders. Adjustment stroke of 13 mm

2 - Structure

U-shaped support structure (straight leg) or A-shaped support structure (sloping leg) with one metal crosspiece per table top. The leg is attached to the metal frame by means of metal inserts and screws in the side lintels to provide maximum rigidity to the table and ensure a quality and durable attachment of the top.

3 - Legs

Metal base with rectangular section 45x45 mm, epoxy powder coated. Invisible high quality welding on the top of the leg.

SETTINGS

For bench or multiple meeting table configurations and for central extension modules, an intermediate steel base with epoxy powder coating reinforces the structure. It is set back for the comfort of users, and allows for a more aesthetic and economical look.

DEPTH OF RANGE

Individual deskBench 2/4/6/8 P.Meeting table

PRODUCT CERTIFICATIONS

- NF ENVIRONMENT
- FSC & CARB tray
- Indoor air emission quality A+ (ISO 16000)
- CFC free
- PET 01

OPTIONS

OPTIONS MELAMINE TOP

- Sliding table - Bench
For Bench. Metal plate with slot for sliding the tray and easy access to the feeder for installation and maintenance. For safety reasons, the slide can be blocked by a knob.

- Notch
Cut-out tray for cable routing.

- Ruler
A metal strip in the middle of the bench can be used to add a panel at a later stage.

ELECTRIFICATION OPTIONS

- Top access aluminium - Reunion
Aluminium top access with slow motion tilting access for meeting stations.

- Melamine accessory top - Bureau
Melamine top access with slow motion tilting access for workstations.

- Chute
Fixed to the supporting structure and made from a 1 mm thick folded metal sheet.

- Simple comfort box
1 comfort socket + 1 USB.

- Double comfort box
1 comfort socket + 2 USB.

- Cable management
Thermoformed fishnet sock

PANEL OPTIONS

- Silencio
Partition screen consisting of a wooden structure covered with acoustic material and covered with fabric or leather.

- Moody
Acoustic partition made of recycled PET foam covered with fabric.

- Backdrop
Melamine backdrop.

- LEATHER
[DANI](#) - Florida
- EXTRA LEATHER
[DANI](#) - nabuk
[SORENSEN](#) - royal nubuk, dunes

MAINTENANCE

• LEATHER & IMITATION LEATHER

Do not place the leather in direct sunlight or extreme heat. Remove dust regularly with a soft cloth.

Clean using a cleaner or milk dedicated to the maintenance of leather and imitation leather. Proceed by stroking, without rubbing or pressing too hard.

Avoid contact with water or sharp objects. If liquid is spilled, wipe up immediately with a clean, dry cloth. NEVER use detergents, ammonia, oil or varnish. For Royal Nubuck Sorensen, avoid contact with liquids and creams.

• METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

• FABRIC

To maintain the fabric, regularly remove dust and lint with a Hoover. If a stain occurs, wipe the fabric immediately with an absorbent, lint-free sponge or cloth. Rub the stain with a damp cloth soaked in ordinary household distilled water to prevent water spots from forming on dark fabrics after drying. Test a hidden area beforehand.

For stubborn stains: lightly brush the stains with a soft, dry brush.

• MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

GUARANTEE

- 5 year warranty
- 10-year manufacturing life

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- Legs and metal parts made of 100% recyclable steel, painted with A and E1 classification
- Springs with A and E1 classification
- Screen upholstered in Oeko Tex or Cradle to Cradle certified fabrics, depending on the choice of finishes. Optional interior in PET, made from recycled plastic bottles
- Our fabrics are Global Recycled Standard / EU ecolabel / RAL UZ / Green Guard / Blue Angel certified depending on the choice of finish.

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
