

STILETTO

Designed by Cider Edition

WORKSTATION I DESK / BENCH / M E E T I N G TABLE

The Stiletto bench is a model of refinement, reconciling tertiary and residential design. Its slim, two-material base, ending in a "stiletto" with multiple finishes from which it takes its name, is a sign that it belongs to the world of fashion and luxury. The elegant, rounded lines of the base and the corners of the warm melamine top are continued by an American-style bridge that contributes to its presence and ensures the solidity of the whole. The Stiletto is not only aesthetically pleasing but also modular, as it can be set up as a bench for 2, 4 or 6 people, with a practical and decorative rail to hold briefcases, mirrors, plants, etc.

STILETTO

Designed by Cider Edition

TECHNICAL DESCRIPTION

1 - Tray

High resistance melamine top, 25 mm thick, with a density of +/-3% of 770 kg/m³. Smooth or lightly textured melamine decor sheet according to the choice of finishes.

Counterbalance in melamine with the same finish. 2 mm thick ABS edges as standard, finished as per tray.

Rounded corners for maximum user comfort

4 - Feet

The metal leg is attached to the metal structure by means of metal inserts and screws in the side lintels to provide maximum rigidity to the table and ensure a quality and durable attachment of the top.

The foot is finished with an elegant shoe that allows for a different material and finish.

2 - Structure

A central metal rail with epoxy powder coating allows you to accessorise with a mirror, document holder, plant stand, partition panels

Two epoxy powder-coated metal crosspieces under the tray

3 - Legs

The vertical part of the cylindrical metal leg is slender, while the horizontal part has a rectangular shape, known as an American bridge. The base is epoxy powder-coated.

- Cylinders

20 mm diameter PVC adjusting cylinders.

Adjustment stroke of 13 mm

SETTINGS

For Bench or multiple meeting table configurations and for central extension modules, an epoxy powder-coated metal intermediate leg reinforces the structure. It is set back for user comfort.

DEPTH OF RANGE

Individual deskBench 2/4/6/8 P.Meeting table

PRODUCT CERTIFICATIONS

- NF ENVIRONMENT
- FSC & CARB tray
- Indoor air emission quality A+ (ISO 16000)
- CFC free
- PET 01

OPTIONS

ELECTRIFICATION OPTIONS

- Aluminium top access
Wooden top access with slow motion tilting access for workstations
- Double comfort box
1 comfort socket + 2 USB
- Chute
Fixed to the supporting structure and made from a 1 mm thick folded metal sheet.
- Cable management
Thermoformed fishnet sock
- Simple comfort box
1 comfort socket + 1 USB

PANEL OPTIONS

- Moody
Acoustic partition made of recycled PET foam covered with fabric and/or glass
- Plexiglas panel
Plexiglas panel
- Backdrop
Melamine backdrop

OFFICE OPTIONS

- Document holder
- Plant holder
- Mirror

MAINTENANCE

• MELAMINE & WOOD SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

• METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

GUARANTEE

- 5 year warranty
- 10-year manufacturing life

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- Legs and metal parts made of 100% recyclable steel, painted with A and E1 classification
- Songs with A and E1 classification
- Screen upholstered in Oeko Tex or Cradle to Cradle certified fabrics, depending on the choice of finishes. Optional interior in PET, made from recycled plastic bottles
- Our fabrics are Global Recycled Standard / EU ecolabel / RAL UZ / Green Guard / Blue Angel certified depending on the choice of finish.

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
