

# STOOD

Designed by Cider Edition

WORKSTATION | DESK / BENCH

The Stood bench is an invigorating workstation for offices that feel good. Its rounded, soft shapes and colourful, slender base make it a pleasant and highly ergonomic workstation.

# STOOD

Designed by Cider Edition

## TECHNICAL DESCRIPTION

### 1 - Tray

Powder-coated MDF top, coated with an epoxy powder paint normally used for metal. Without the use of glue, and therefore without VOC emissions, this makes Stood a resistant desk - to abrasion, scratches and stains.

- and fully participate in sustainable development. Ogee shaped edges and curved edges for maximum comfort

### 4 - Notch

Cut-out on the side for cable routing

### 2 - Legs

Asymmetrical sloping leg (A-shaped), mixed metal and wood

### 3 - Feet

The leg is attached to the metal structure by means of metal inserts and screws in the side lintels to provide maximum rigidity to the table and ensure a quality and durable attachment of the top. For extended configurations, an epoxy powder-coated metal intermediate leg reinforces the structure. It is set back for the comfort of the users, and provides a more aesthetic appearance.

### - Structure

Structure composed of two metal crosspieces with epoxy powder coating.

## SETTINGS

Stood panel included.

For extended configurations, an intermediate metal base with epoxy powder coating reinforces the structure. It is set back for the comfort of the users, and allows a more aesthetic rendering.

## DEPTH OF RANGE

Individual desk

Bench 2/4/6/8 P.

## INFORMATION

### BENCH\*

## PRODUCT CERTIFICATIONS

- FSC & CARB tray
- Indoor air emission quality A+ (ISO 16000)
- CFC free

## OPTIONS

### ELECTRIFICATION OPTIONS

- Top access wood - Office

Wooden top access with slow motion tilting access for workstations

- Chute

Individual or shared trunking, fixed to the supporting structure and made from a 1 mm thick folded metal sheet. Coated with epoxy powder paint.

- Simple comfort box

1 comfort socket + 1 USB

- soft comfort box

1 Comfort socket + 2 UsB

### PANEL OPTIONS

- Silencio

Silencio, acoustic screen in imitation leather, anti-bacterial and anti-mite treated. Several heights

- Backdrop

Melamine backdrop

## FINISHES

- PLATEAU

[JOLLY](#) - carmen

- LEATHER

[DANI](#) - Florida

- EXTRA LEATHER

[DANI](#) - nabuk [SORENSEN](#) - royal nubuk, dunes

## MAINTENANCE

- POWDER-COATED TRAY

Lacquered surfaces require particularly careful maintenance to avoid scratches. To clean, use neutral soap or alcohol diluted in plenty of water, and dry immediately with a soft cloth, if possible white and non-abrasive. It may happen that during the first cleaning, the cloth becomes slightly coloured. This is due to the presence of paint dust on the surface during the drying process: once removed, the problem is solved. Avoid strong detergents, solvents and stain removers.

- WOODEN PARTS

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

- METAL PARTS

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

## GUARANTEE

- 5 year warranty
- 10-year manufacturing life

## ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France

- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- Legs and metal parts made of 100% recyclable steel, painted with A and E1 classification
- Songs with A and E1 classification
- Screen upholstered in Oeko Tex or Cradle to Cradle certified fabrics, depending on the choice of finishes. Optional interior in PET, made from recycled plastic bottles
- Our fabrics are Global Recycled Standard / EU ecolabel / RAL UZ / Green Guard / Blue Angel certified depending on the choice of finish.

## **ENVIRONMENTAL STATEMENT**

### • Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

### • Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosness for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the guarantees of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

### • Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
