

TIRAMISU

Designed by Cider Edition

WORKSTATION I H E I G H T ADJUSTABLE DESK

Tiramisu is a family of height-adjustable workstations designed to enhance employee well-being. Ergonomic, it allows the user to move effortlessly from a sitting to a standing position, thus ensuring that they remain active and productive in the workplace. Tiramisu offers several tabletop finishes, from melamine to powder coated, and several height adjustment options: from a simple ratchet system to electric adjustment, including a crank system and the new versions with gas lift adjustment. It is also equipped with an integrated cable duct for optimised cable management and acoustic partitioning screens. An asset for collaborative and dynamic work environments in Flex Office.

TIRAMISU

Designed by Cider Edition

TECHNICAL DESCRIPTION

1 - Tray

High resistance melamine or powder coated top, 25 mm thick and with a density of +/-3% of 770kg/m³. Smooth or slightly textured melamine decor sheet, depending on the choice of finishes. Counterbalance in melamine with the same finish. 2 mm thick ABS edges as standard, finished as per tray.

4 - Cylinders

20 mm diameter PVC adjusting cylinders. Adjustment stroke of 13 mm.

2 - Structure

Composed of one structural crosspiece per tray, powder coated epoxy, with inserts to ensure a high quality and long-lasting fixation of the tray.

3 - Legs

Powerful and very stable telescopic columns, height adjustable from 640 to 1290 mm, capable of lifting heavy loads. Very low standby power consumption of 0.1 W. Rectangular column section 80 x 50, base legs: 70 x 5.5.

5 - Electrification

Two different types of order.

FEATURES

Noise: low level.
Maximum speed: 43 mm/S.
Pitch: 15 mm.
Maximum force: 1600 N (per foot, unloaded).
Complies with UL 962, IEC and EN 60335-1.

DEPTH OF RANGE

Individual offices Bench offices

INFORMATION

INDIVIDUAL OFFICE*.

Reference	ELE_ADJ_140_80	ELE_ADJ_160_80
Length	1400 mm	1600 mm
Depth	800 mm	800 mm
Height	680 - 1200 mm	680 - 1200 mm
Weight	38 Kg	41 Kg
Package volume m ³	0,80 m ³	0,90 m ³

PRODUCT CERTIFICATIONS

- FSC & CARB tray
- Indoor air emission quality A+ (ISO 16000)
- CFC free
- PET 01

OPTIONS

ELECTRIFICATION OPTIONS

- Aluminium top access
Aluminium top access with slow motion tilting access for meeting stations.
- Simple comfort box
1 comfort socket + 1 USB.

- Melamine accessory top - Bureau
Melamine top access with slow motion tilting access for workstations.
- Double comfort box
1 comfort socket + 2 USB.

PANEL OPTIONS

- Silencio + Backdrop
Partition screen consisting of a wooden structure covered with acoustic material and covered with fabric or leather.

- Moody
Non-OFC regulatory foam acoustic barrier

ORDERING OPTIONS

- Control DPG1K (standard)
- Intuitive operation for easy up and down driving
- Colour: black (RAL 9005)
- Black cable with modular jack plug, 1700 mm straight
- PVC™ free

- DPG1C Bluetooth control (optional)
- Intuitive control for offices
- Recall function via a light strip
- Four preferred positions
- View
- Bluetooth
- Colour: black (RAL 9005)
- Black cable with modular jack plug, 1,700 mm straight
- PVC™ free

[JOLLY](#) - carmen

- LEATHER
[DANI](#) - Florida

- EXTRA LEATHER
[DANI](#) - nabuk
[SORENSEN](#) - royal nubuk, dunes

MAINTENANCE

• POWDER-COATED SURFACE

Lacquered surfaces require particularly careful maintenance to avoid scratches. To clean, use neutral soap or alcohol diluted in plenty of water, and dry immediately with a soft cloth, if possible white and non-abrasive. It may happen that during the first cleaning, the cloth becomes slightly coloured. This is due to the presence of paint dust on the surface during the drying process: once this is removed, the problem is solved. Avoid strong detergents, solvents and stain removers.

• LEATHER & IMITATION LEATHER

Do not place the leather in direct sunlight or extreme heat. Remove dust regularly with a soft cloth.
Clean using a cleaner or milk dedicated to the maintenance of leather and imitation leather. Proceed by stroking, without rubbing or pressing too hard.
Avoid contact with water or sharp objects. If liquid is spilled, wipe up immediately with a clean, dry cloth. NEVER use detergents, ammonia, oil or varnish. For Royal Nubuck Sorensen, avoid contact with liquids and creams.

• MELAMINE SURFACE

For ordinary cleaning, use a soft cloth moistened with warm water or non-aggressive detergents, or a mixture of 95% water and 5% denatured alcohol. Follow the grain of the wood. Test a hidden area beforehand. Avoid strong detergents, solvents and stain removers.

• FABRIC

To maintain the fabric, regularly remove dust and lint with a Hoover. If a stain occurs, wipe the fabric immediately with an absorbent, lint-free sponge or cloth. Rub the stain with a damp cloth soaked in ordinary household distilled water to prevent water spots from forming on dark fabrics after drying. Test a hidden area beforehand.
For stubborn stains: lightly brush the stains with a soft, dry brush.

• METAL

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

GUARANTEE

- 5 year warranty
- 10-year manufacturing life

ECOLOGICAL FOOTPRINT

- Italian manufacture
- Assembly France
- FSC and ISO 14001, 9001, 45001 certified wood factory
- Eco-responsible wood sourcing and management, 100% recyclable and FSC & CARB certified
- Legs and metal parts made of 100% recyclable steel, painted with A and E1 classification
- Songs with A and E1 classification
- Upholstered screen in Oeko Tex or Cradle to Cradle certified fabrics, depending on the choice of finishes.

Optional interior in PET, made from recycled plastic bottles

- Our fabrics are Global Recycled Standard / EU ecolabel / RAL UZ / Green Guard / Blue Angel certified depending on the choice of finish.

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosness for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
