

UMBRA

Designed by Cider Edition

TABLE | COFFEE TABLE

Umbra is distinguished by an unexpected combination of very different materials: the natural black cork "Black Cork", with its imposing character, is combined with a light and frankly coloured aluminium base. A modern and striking sculptural ensemble that takes on its full meaning when it is plural. Umbra likes to break the codes of working environments, and will appeal wherever it is, whether in reception areas, convivial areas or more formal areas.

UMBRA

Designed by Cider Edition

TECHNICAL DESCRIPTION

1 - Tray

It is available in three sizes. All legs are made of dyed aluminium and the tops of black cork.

The table has a diameter of 700mm and a height of 366mm and has a golden base.

The table has a diameter of 500mm and a height of 466mm and has an orange base.

The table has a diameter of 450mm and a height of 516mm and has a blue base.

2 - Legs

The aluminium base is a star shape with four arms

PRODUCT CERTIFICATIONS

- Indoor air emission quality A+ (ISO 16000)
- CFC free

FINISHES

• TRAY

CORK

Black cork

- PIECE

ALUMINIUM

Green RAL 6012

Blue RAL 5014

Coral RAL 2001

Ochre RAL 8001

MAINTENANCE

• ALUMINIUM

Clean with a microfibre cloth soaked in neutral soap or neutral cleaners diluted in water. For varnished products, avoid cleaners containing alcohol, granular cleaners and solvents in general. For other finishes, the use of a specially formulated metal cleaner is recommended.

• LIEGE & BLACK CORK

Cork is a natural and ecological material. Clean with a slightly damp cloth soaked in a little neutral soap.

GUARANTEE

- Product guaranteed for 2 years
- Manufacturing life 5 years

ECOLOGICAL FOOTPRINT

- Made in Italy.
- Metal parts made of 100% recyclable steel, painted with A and E classification

ENVIRONMENTAL STATEMENT

• Getting involved, concretely

Because we were keen to offer products that deeply embody who we are, Cider is committed to offering furniture that is an agent of change, respectful of the environment and of the quality of life of its users.

Our commitment to the environment and quality is part of a global and concrete approach, involving all areas of activity of the company and its partners: from eco-design to manufacturing, from the choice of materials to their supply, from logistics to transport, from the life cycle of products to their recycling.

Committed, we are certified Gold by the EcoVadis label for our CSR, ISO 14001 for the environmental performance of our production cycle. Our Group is committed to human rights and environmental issues and has been a member of the United Nations Global Compact since 2014. We are also a member of Valdelia and a signatory of the UNIFA (Union Nationale des Industries Françaises de l'Ameublement) CSR charter.

• Designing, sustainably

The products proposed and published by Cider are designed to last. Evolutive, their design combines function and aesthetics, freeing itself from fashion and superfluosity for a longer life.

The right number of components, the maximum number of interchangeable and reusable parts, the encouraged use of recyclable, resistant and easy-to-maintain materials, and a majority of the production to order for a signed project: these are the pledges of a reasoned and environmentally friendly design, capable of avoiding unnecessary waste and reducing the use of energy and natural resources.

It is on this basis that Cider guarantees its products in the tertiary range for 5 years (with the exception of the gas cartridges in the chairs, which are guaranteed for 2 years) and 2 years in the image range. The manufacturing durability is 10 years for the tertiary range and 5 years for the image range.

• Produce, with awareness

We share with our manufacturers a common commitment to quality and the environment. Our industrial partners are located exclusively in Italy and are for the most part ISO 9001 and 14001 certified, a true guarantee of quality and short, controlled circuits.

Their know-how and high standards are based as much on traditional techniques as on the latest technologies, with a view to ensuring a high standard of quality and continuous improvement at every stage of the production process, while respecting natural resources.

Our key partners follow the REACH standard for resource conservation, component separability and end-of-life recyclability of materials. They constantly strive to reduce and eliminate VOC emissions and use only products with A and E1 classifications. Our factories favour European materials, sourced from Italy and Germany and recyclable. They use FSC or PEFC certified wood and Oeko Tex certified fabrics.

The reduction and recycling of waste and packaging is a concern shared by all.
